[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO FEBRUARY 21.

Congressional

WASHINGTON, Feb 19.—In the House, a bill passed declaring the lands constituting the Fort Collins Military Reservation in Colorado subject to pre-emption and homestead entry.

The House went into Committee of the Whole. The legislative appropriation bill amendment appropriating ninety one thousand dollars for the branch mint at Carson City, was agreed to. Dawes remarked he would call the ayes and noes of the House. Arnold moved the appropriation of one hundred thousand dollars for the Bureau of Education. Pending action the Committee rose.

McCreary introduced a bill to provide for a stay of execution in all cases of debts contracted prior to July 11, 1862, the date of the passage of the first legal tender law. The bill is intended to afford relief against the operation of the recent legal tender decision. It provides a stay of one to four years according to amount, but if plaintiff will receive pay in currency, there shall be no stay of proceedings. Whenever specie payment is resumed, all stays under the act shall terminate.

Garfield, from the Committee on Rules, reported the following: The Committee on Elections, for the Fifty first Congress, shall consist of fifteen members, and each contested case shall be assigned by the Chairman to a special committee of three members thereof for their exclusive consideration. Such special committee shall report their decision in the case directly to the House. Garfield stated that it was understood though it could not be stated in these rules, that the Speaker would appoint five Democrats and ten Republicans, and the sub committees would consist of one Democrat and two Republicans. He said the present practice in settling contested elections [illegible] all must deplore. It was a sad state of affairs to have a judicial question decided on strict party lines. After a brief discussion the rule was adopted and the House again went into Committee of the Whole for general debate. Several speeches were made or allowed to be printed, and the committee rose and the House adjourned.

In the Senate, the Vice President submitted the resolutions of the Virginia Legislature for the removal of political disabilities of the people of Virginia. Tabled.

The House bill to defray the expenses of witnesses in the investigation of the sale of cadetships passed.

Morrill of Maine introduced a bill to provide that the unexpended balance of appropriations be converted into the Treasury two years from the time when the original appropriation was made.

Wilson introduced a bill authorizing the Secretary of War to transfer to the Secretary of the Interior, for disposition according to existing laws, the military reservations at Forts Lane and Wallace in Oregon, Camp McGarry, Nevada and portions of the Fort Bridger reservation, in Wyoming.

The annual post route bill was amended and passed.

Spencer advocated the claims of the laboring classes to Government employ, and urged the passage of the pending bill upon that subject.

Some conversation arose regarding the reading of the telegram from the Governor of Nebraska to Sumner, yesterday, announcing the ratification of the 15th amendment. Tipton and Thayer considered that parliamentary courtesy required that such intelligence should be communicated through the Senator representing the State. Thayer had received a telegram in answer to the one sent at the request of Sumner.

Williams called up the bill granting land to aid in the construction of a railroad and Telegraph line from Portland to Astoria and McMinnville, Oregon. Thurman spoke against the land grant contained in the bill, and said the Government had already given twelve millions to the Union Pacific, seven or eight millions to the Central Pacific, twenty millions to the Northern Pacific, and there were now a dozen bills pending proposing subsidies to railroads running in every direction, to the amount of fully one hundred millions of acres more. The country's great source of prosperity was cheap lands. Giving them to railroads enhanced their value and made it more difficult for people to acquire homes for themselves and children.

Stewart believed the policy of distributing the public lands to railroads the best that could be pursued. He did not propose to leave the public domain as a heritage for future generations, but would have the present age realize the greatness and grandeur of the country. The country demands opportunity for expansion first. Railroads were efficient means of development, and there fore he wanted more railroads.

Casserly spoke in direct opposition to distributing the public domain in parcels to railroads; that railroads had contributed to the development of the material wealth of the country was not sufficient argument to entitle them to rule the country. He claimed that the Government held these lands in trust not for the present generation alone but for millions hereafter. A motion to indefinitely postpone was rejected, and a motion to strike out the land grant was defeated by a vote of 3 to 37, ayes, Casserly, Davis and Saulsbury, Thurman having paired off. The bill was then variously amended, and a provision was adopted prohibiting the company from taking any land containing iron or gold, when the bill passed.

A message was received from the President relative to Col. Baker's conflict with the Indians. Adjourned.

WASHINGTON, Feb 21.—The House adopted Loughridge's resolution offered last Monday to increase the currency by $50,000,000.

Bingham introduced a bill to fix the point of junction of the Union and Central Pacific Railroads.

Washington News

WASHINGTON, Feb 19.—The members elect to Congress from Mississippi, with the addition of Senator elect, Revels, made another visit to the Executive Mansion for the purpose of requesting the President to delay signing the bill for the admission of Mississippi until after the bill removing political disabilities, which contains names of certain members of the delegation, shall have passed Congress. The reason for this request which was the fact that by the admission of the State before the removal of disabilities, a portion of the delegation would be deprived of their seats was stated to the President, who in response, expressed his willingness to conform to the wishes of the delegation. Consequently the Mississippi bill will not yet be signed. The Mississippi delegation desire the President to postpone the signing of the bill until after Tuesday, so as to delay the assembling of the Legislature one week.

WASHINGTON, Feb 21.—Greenwold proved to be a German.

Senator Pomeroy, from the Committee on Public Lands, has reported in favor of a grant to the St. Paul and North Pacific Railroad Company, to extend their line from the terminus on Red river of the North to the Winnepeg frontier. Senator Ramsey has announced that Amsterdam capitalists will construct this road to Pembina as soon as the Northern Pacific can be built from Duluth to Red river, which will be in the course of a year. This measure will be supported on political grounds as the most tangible expression by this government of its sympathy with the struggles of the Winnepeg people for republican institutions and a checkmate to the Canadian scheme for a Pacific railroad.

CHICAGO, Feb 21.—The *Times'* Washington special says the Fifteenth Amendment will probably be officially promulgated by the middle of the week. There will also be a resolution offered in Congress declaring the amendment ratified and bills will be proposed to enforce its provisions.

The *Times* Washington special says that Chandler, who was a member of the joint committee on the Conduct of the War, intends to address the Senate on Monday, reviewing Fitz John Porter's case and sustaining the Court Martial in his case. He will also assert that the Court favored the sentence of death but modified it upon learning Lincoln's opposition to it. The object of the speech is to prevent the proposed Congressional action on behalf of [illegible] case.

Much time is being spent over the appropriation bill. It is now very probable that the session of Congress will last till mid summer.

NEW YORK, Feb 21.—A *Tribune's* Washington special says Admiral Farragut was better last evening.

The Military Committee having ascertained that Butler, of Tennessee, had sold Cadetships, he explained before the committee that the money was used partly to assist in electing Stokes Governor and he divided the balance between himself and other politicians. A morning [illegible] that Hadley [illegible].

The House will discuss the [illegible] establishing the bureau of education next session. In committee of the Whole on the legislative appropriation bill, the Committee on Appropriations reported a section abolishing the [illegible] was ruled out of order. The pending question is the insertion of an appropriation [illegible] for expenses of the bureau.

The Senate on Saturday [illegible] the Oregon [illegible] bill [illegible] in the shape of [illegible] that when lands are granted they [illegible] of speculators [illegible]. One of the House committees takes ground against granting lands on any conditions.

New York News

NEW YORK, Feb 19.—Some anxiety is occasioned by the non arrival of the steamer *City of Boston*, which left here Jan. 2[illegible] for Halifax. On the 28th strong coast winds were reported from Liverpool, which might keep out any vessel trying to make that port.

In the case of Marcus L. Woodruff vs. the Camden and Amboy Railroad, involving the liability of railroads as common carriers, the Jury were unable to agree, and have been discharged.

POUGHKEEPSIE, Feb 19.—A heavy land slide occurred at Plum Point, on the Hartford and Erie Railroad to-day.

NEW YORK, Feb 19.—The O'Neil Fenians have within the last few days accumulated a great number of arms at their headquarters, indicating it is said, an early movement on Canada.

George Arensberg, a compositor in the *Times* office, yesterday set 2,064 ems of solid minion in an hour. This is said to be the fastest type setting on record.

NEW YORK, Feb 20.—It is reported that the Secretary of the Navy has instructed Admiral Morton to enter into no arrangement with the Spanish officers for the repair of the war vessels [illegible] and [illegible] in the Brooklyn navy yard until the result of the Congressional movement on the neutrality question is known.

Specials say the President has withdrawn the Kiowa Indian treaty swindle before the Senate could find time for its ratification.

There was a snow storm this afternoon and the weather is cold.

Two cases of relapsing fever have occurred during the past week in crowded tenements.

The President yesterday sent to the House the correspondence from Havana, the substance of which has already been published.

The annual session of the Newark Methodist Conference, embracing portions of New York, Pennsylvania, nearly half of New Jersey and Staten Island, commences in New Jersey March 23d. The New Jersey Methodist Conference hold their session about the same time at Long Branch. It is reported that they will meet in union at Jersey City, looking to the consolidation of both bodies, which were divided in 1857. Five hundred clergymen are expected to participate, and an important declaration is anticipated.

CHICAGO, Feb 19.—A *Tribune's* New York special says very little ice has been harvested on the Hudson river. Agents for several companies have gone to Maine and Canada to secure supplies.

Two thousand dollars in counterfeit five cents nickels were seized yesterday in Brooklyn. Two arrests were made.

Wall street operators predict considerable excitement in the gold market this week. The bears are said to have made a heavy pool to depress the price.

NEW YORK, Feb 21.—Last evening a heavy rain storm set in and continued till midnight. A heavy tide then rose, and the basements on either side of the city were flooded, and much damage was done to property before the morning cleared up. Thus far it is the coldest day of the season.

The Mormons held services at Williamsburg yesterday. There was a large attendance and much enthusiasm. They were addressed by newly arrived Missionaries from Salt Lake. The proposition to build a Mormon Church on Grand street in Williamsburg, excites considerable indignation among the inhabitants.

Rev. Mr. Cuyler preached a sensation sermon on the late Voorhees murder last evening. He attributed the tragedy to liquor, and declared that rum selling and murder go hand in hand. He charged that men who sold the poison that crazed the brain were accomplices in the crime. He referred to the Byron-Stowe scandal, and took occasion to cast a volley of stones at the poet. He thought that the whole and only true story of Byron's life might be summed up in one syllable, "gin."

Correspondence from Salt Lake City shows that the passage of the act to give the women suffrage in Utah, was the work of both Mormons and Gentiles, the Legislature being Mormon and the Governor Gentile. The two parties entertain different views of the way in which it will work.

Alice Carey, the poetess, is dangerously ill of paralysis.

Heavy Freshets in New England. Great Damage to Railroads and Bridges.

BOSTON, Feb 19.—A dispatch from Concord, N. H., reports a great freshet in the Upper Connecticut Valley and immense damage, bridges and barns having been carried away. The people are alarmed, many families leaving their houses for safety.

BOSTON, Feb. 19.—The trains on many of the New England railroads were delayed by the washing away of tracks by the heavy rains yesterday.

SKOWHEGAN, Feb 20.—The Kennebec river is at an extraordinary height. The freshet is without a parallel in this section. Many bridges above are washed away. The Kennebec and Portland railroad is washed out in one place for a distance of fifty feet to the depth of thirty feet.

AUGUSTA, Feb 21.—The freshet to-day was the most destructive ever known in the Kennebec river. The water rose twenty five feet above low water mark. Immense damage has been done along the river.

HALLOWELL, Feb 21.—The whole business portion of Water street is overflowed, and some stores have six feet of water on the first floor. From one to two hundred houses floated from their foundations and are overturned. Many families are homeless.

Chicago Dispatch

CHICAGO, Feb 19.—A heavy snow storm has been raging all day, and much snow has been drifted by the high winds. It is now clear and growing cold.

CHICAGO, Feb 21.—J. L. Phipps, a farmer living near Lincoln, Illinois, in a fit of frenzy, cause unknown, shot his wife through the head on Friday last, and then blew his own brains out.

In Beardstown, Illinois, on the 17th inst., a desperate character named Wilcox was beating a drunken man in a saloon, when one of the proprietors interfered, whereupon Wilcox drew a revolver and fired, killing one of the proprietors dead and mortally wounding the other. The murderer was taken to jail and on Friday night friends of the murdered man gathered and quietly captured the sheriff and took the keys of the jail for the purpose of taking Wilcox out to hang him. He shouted fight, having obtained an iron bar, when they shot and killed him and took the body out and hung it to a tree.

Weather last night and to-day was extremely [illegible].

War among the New York Democracy

CHICAGO, Feb 21.—A *Times* New York special says a meeting of influential Democrats opposed to the Tammany ring was held yesterday. The Legislature having adjourned over, the meeting was largely attended by members and other leading Democrats of the city and State. The occasion developed greater and more strength than many supposed. The movement is directed against Sweeney, Tweed and Connolly, the Tammany leaders. Among the leaders of the movement are Samuel J. Tilden, A. H. Green, Controller of Central Park, [illegible] a candidate for Mayor, Sheriff O'Brien, Congressman John Fox and three State Senators. The *World* has proclaimed war to the knife against Tammany. The above leaders of the new movement have already received the popular title of the Seven Scalpers.

Reception of the Kentucky Legislature at Cincinnati

CINCINNATI, Feb 19.—The members of the Kentucky Legislature arrived here this afternoon on invitation of the City Council. There was a grand banquet at the Burnett House to-day.

New American Policy

ce a week we have information ody has taken into consideration of the decline of shipbuilding in States, and has proposed a remeerson is sure that the decay of the marine is due to the tariff on ship aterials and easily demonstrates tariff were removed we should den ships as in former times for ts of the world Another shows years there has been a revolution ding, that iron vessels are now place of those built of wood, that ng of wooden ships can never be revived but that if the duty on removed we should be able to com Great Britain in the construction ps Investigations of this subject ts upon it usually follow this gen , but they do not touch the core tter Undoubtedly the change from o iron ships has had something to he decline of this industry in our for when wooden vessels were the built, America having a great supber, had advantages over England ditions are reversed since iron ships o use, because England is the great cheap iron But the great cause of ne of shipbuilding in America lies is. It is found in the fact that with expansion and growth of our coun of our energy and capital have been in internal commerce England, in a geographical sense, is a small She possesses immense capital and s energy ; and as there is not room r own lands for the exercise of her she must find room for them through channels Hence she builds ships nds for the [illegible] of the ocean. e was when the United States con r it with her, but this was under nditions than those now existing t that time all the energies of the were concentrated on the Atlantic . The West was unknown ; at least undeveloped. The [illegible] of prising the Atlantic slope practically nced the entirety of our commercial s. The great mines of the West were dreamed of, and the vast interior to have no utilitarian future. Salaries of City Officers.

omy, "as Burke saith, is a distributive and parsimony is not necessarily econ This is eminently true in the manageof public affairs. The salaries of servants should be liberal enough to nd abilities equal to a proper discharge duties required, but larger salaries ill serve for this, especially in subordipositions where the duties to be perare mainly of a mecanical or instrukind, are unjust to the people who ute in taxes the money necessary to t government in all its forms. notice that a considerable increase is ed in the salaries of some of our city . With due deference and respect to who favor this proposition we suggest a whether the increase at this time ought nds The salaries now paid seem to e fair, at all events they are consider ough to have occasioned quite an anx get them. They were thought to be making a great effort for, and no doubt f the incumbents would make a similar o obtain them again If they would s certain, however, that other persons ould, could be found without much ty The City Auditor now receives a of $1,800 per annum In addition to e sum of $500 is allowed for such as e in his office as may be needed. An nce is now before a Committee of the on Council which provides that his sala be raised to $2,100. The City Treasurer ceives $1 300 and it has been proposed as n, to add $300 to this amount Next a proposition to increase the salary of reet Commissioner from $900 to $1 800 ing this is a suggestion that the pay of ief Engineer of the Fire Department be sed by the sum of $300 And finally s a demand for two additional Deputy als, at a cost to the city of $2 400 a year esent, in our judgment, is not the time for ncreased outlays of money The work ed of the officers is not greatly larger has been heretofore and the salaries ave hitherto been deemed fair and even compensation for the services render n these times economy in public expen s is a positive necessity Money, cer is not very abundant, business is slack ere is complaint of general depression ty taxes for the past year have necessa en somewhat increased Some extraary expenses have been incurred which could not be avoided A building lot ouse for one of our fire companies have bed $8,600, the expenses of lighting the re constantly increasing and as imments have been going on in many of the s throughout the city considerable ap riations have necessarily been made to im parks and other city property In view of e facts of the situation we think, therethat the propriety of these propositions for an increase of salaries just now is very questionable The people want to pay fair salaries but in the present season of hard times will object seriously to paying more The great majority, we are inclined to think will not easily comprehend why a salary pertaining to an office that was sought with avidity but a few months ago should not be deemed a reasonable compensation a while longer

Editorial Notes

It is announced by the telegraph that the Fifteenth amendment will very soon be proclaimed It is not improbable that the Democratic politicians of this city on reading this announcement to-day, will rush right off at once to our colored fellow citizens declare themselves their truest warmest friends and appeal to them to vote nothing but the straight Democratic ticket

The telegraph reports the passage by the Senate of the Portland Astoria and McMinnville railroad bill This is a gratifying announcement. The prompt action of the Senate gives reason to believe that favorable action will soon be taken by the House Those interested in this matter will observe that the only opposition which the bill encountered in the Senate came from the Democrats

The Republicans of Missouri have declared for a policy of liberality and magnanimity In the Legislature the Republican members have voted almost unanimously to propose to the people of the State an amendment to the Constitution, enfranchising all those who are now deprived of the right of suffrage on account of race or color or their connection with the late rebellion. This proposition will be submitted to the people to be voted on at the next general election Thus at the earliest moment consistent with safety the loyal men of Missouri have declared their willingness to give back their forfeited privileges to those who without cause went into rebellion and inflicted such terrible calamities upon the State.

The funding bill proposed by Senator Sherman, has been made the order for discussion in the Senate to-day, (Wednesday) Its principal features are as follows The total amount to be funded will be fixed at twelve or fifteen millions. The first series of the new bonds will bear five per cent interest, to run for twenty years, redeemable after ten years. The second series to follow hereafter when the first is taken up, after due notice, to bear four and a half per cent , to run thirty years ; and the third series to follow at a still later period, to run forty years and bear four per cent., the principal and interest [illegible] to be paid in coin The amount of the first loan bearing five per cent. will probably be limited to $400,000,000, or possibly $500,000,000, and the time allowed for taking it up will also be limited, and announced together with the positive notice that no further sum will thereafter be offered bearing so high a rate as five per cent

Newspaper Topics

The *Herald* says that those Republicans who were once Democrats try to keep that fact before the public, and adds that "this is one manner in which Radical vice is made to pay tribute to Democratic virtue " The *Herald* mistakes the matter entirely A Republican who was once a Democrat, when he refers to his former connection with the Democratic party, only refers to it for the purpose of letting people know that he had patriotism enough to leave the party when it plunged the country into rebellion

The Corvallis *Mercury* in its last issue published with great display an account of "an important accession to the Democracy of Benton county." "Hon. Charles P Blair" was the man who had renounced "Radicalism " In the graphic words of the *Mercury*, "the 'last feather' was the fifteenth infamy. It was too much for the bold, honest Republican to bear in silence. All honor to Mr Blair." This is fine, but it turns out that the *Mercury* was hoaxed. The *Gazette* says there is no such person in Benton county as Charles P. Blair, and has a good laugh at the gullibility of the *Mercury*.

An article in the Salem *Statesman* discusses repudiation, and puts the case in this way "Another hobby is that the men who bought the bonds only paid forty and fifty cents on the dollar for the same. Why, dear Democratic friends, you proclaimed it broadcast over the land 'in the hours that tried men's souls,' that you would not give a 'whoop in Hades a ten' for them, to use the classical and chaste language of the supreme ruler of the Democracy of Polk That there was a risk to run in the purchase of bonds none will have the hardihood to deny, and now, simply because the speculation has turned out better than was anticipated by the enemies of the Government, does it necessarily follow that we shall repudiate, to gratify their selfish spleen "

Wool Manufacture

A meeting was recently held of the Executive Committee of the National Association of Wool Growers and Wool Manufacturers at which a memorial in answer to so much of Commissioner Wells' report as relates to the effect of the existing tariff on wools and woolens, was adopted and ordered to be sent to the Committee of Ways and Means Mr Wells proposed to show that the tariff of '67 had been the direct cause, 1 of the reduction of the price of wool to the wool grower, 2, of the destruction of sheep to the number of about four millions annually, 3, of the depression of the wool industry to a degree only outdone by that of ship-building, 4 of the increase of importations of foreign fabrics, 5, of the growth of smuggling. The following is a summary of the Committee's answer

In regard to the first two points, the present low price of wool and the destruction of sheep, the committee call attention to the omission from the report of important facts which would have neutralized his statements,—and especially to the great controlling facts of the glutting of all the markets of the world, except that of the United States, with the over production of the fine wool of the Southern hemisphere, and of such a destruction of sheep in Australia, and the country of the La Plata, as has no parallel here, to the unprecedented diminution of price within the last two years of competing wools throughout the world, to say nothing of the diminution caused by the over-production in this country stimulated by the war The figures showing the increase of these wools during the last seven years have no parallel in any other period.

The universal depression in the wool industry, assumed by Mr Wells, is denied, as many branches and establishments enjoy reasonable prosperity, and of the rest, other sufficient and more obvious causes than the tariffs exist, one of which may be found in the fact that in eight years our production of woolen manufacturers has increased one hundred and fifty per cent. The machinery called into operation by the necessities of the war, and by the cotton famine, still exceeds the demand The depressed branches suffer in spite of cheap wool,—and free wools would have hardly relieved a market already overstocked, while a general reduction of the tariff would have converted depression into annihilation

The last two propositions, that the existing tariff had increased importations of foreign fabrics of wool, and had brought smuggling to a system, seem to answer each other Passing from these propositions to the more general statements of the commissioner's report, the latter presents a formidable array of facts and arguments to show that the existing tariff is as well adapted as any legislation which can now be devised to keep wool growing and the manufacture of wool among the established and successful industries of the country

How the World May be Destroyed.—Astronomy in conjunction with optics has been making some extraordinary discoveries in the last few months The spectroscope is a wonderful aid to the telescope and as the latter brings to view distant worlds, the former indicates the materials of which they are made The late eclipse of the sun demonstrated that immense volumes of hydrogen gas stretch upward hundreds of miles above its surface, making reality the oceans of flame which have often figured in hyperbole

A thought has occurred to us in this connection, which we venture to commend to the attention of our astronomical and geological friends It is a well known fact in geology that in past periods a vastly greater heat has pervaded the earth than at the present time The flora and fauna of a tropical climate flourished at the poles Scientific men have been ingenious in speculations about the cause of the change Some have ascribed it to the internal heat of the earth which has been gradually evolved in successive ages Others have attributed it to a different relation of the axis of the earth to the plane of the ecliptic Possibly others may have suggested a change in the internal constitution of the sun, though we do not remember to have seen it in our limited reading But the phenomenon finds an easy solution in this hypothesis

During the last year a small star in the constellation of the Northern Crown suddenly became bright as a star of the first magnitude Astronomers at once resorted to the telescope to explain the mystery, but could find only a confirmation of the fact with no hint of its cause Opticians applied the spectroscope and at once the mystery was revealed A vast ocean of hydrogen was in flame and its combustion melted the small star one of the most brilliant in the firmament The mathematicians took up the data given them in the increase of light and proved that if any worlds of which this star may be the central sun there must have been an increase of heat to seven hundred and eighty times the normal standard If these worlds are made of similar materials with our earth they must have dissolved under this intense heat as in the final catastrophe of our globe predicted by Peter

Our thought then is simply this If by internal changes or evolutions in the central sun the condition of all the planets must be sensibly affected and if our sun is liable to such changes as this star in the Northern Crown (we know it has untold volumes of hydrogen about the surface) why may not the former extreme heat of the earth have been due simply to atmospheric changes in the sun? And why may they not occur on a larger scale in the future, heralding the final judgment —[illegible] *Journal*

The National Temperance Meeting.—By half past seven o'clock last evening, the court house was filled to its utmost capacity with citizens who had congregated to answer the call of the Congressional National Temperance Society for the organization of a local Washingtonian Society

Judge Thornton called the meeting to order whereupon W W Page Esq was elected Chairman and Mr D W Williams Secretary

On taking the chair Mr Page addressed the meeting for about thirty minutes referring in fitting terms to the Father of our Country whose birthday we celebrate to this public movement for the reclamation of the country from intemperance

Mr [illegible] made a handsome practical speech of an hour and was succeeded by Mr Caples who spoke briefly

Between each of the speeches the 23d Infantry Band favored the audience with appropriate pieces of music

Messrs Stitzel Hoag Solomon and Vellum were appointed a committee to draft a constitution and by laws

The pledge of total abstinence from intoxicating drinks was then presented and about three hundred came forward and put down their names

The meeting then adjourned, to meet at the call of the President

Real Estate Transfers.—The following deeds have been filed for record [illegible] the last [illegible]

John Hayden and wife and W H. Smith and wife and J S Smith and wife to U E Hicks, lot 5 in block 151 $2 700

George Clark and wife to Elizabeth Taylor; a piece of land containing 7½ acres, $1,000.

Jacob Wheeler and wife to E P Hutchinson; a certain lot in block 8 in Wheeler's Addition to East Portland; $300

R K Chatfield to Walter Moffatt and W H. Andrus a piece of land containing 160 acres; $1 and other valuable considerations.

Stephen Coffin to E Williams, block 50 and lots 5 and 6 $300

Hiram Smith and wife to R R Hayden; Jas. Menzie David Powell R. B Wilmot, and —— Dunbar a piece of land containing two acres, $1.

W W Chapman and wife to Stephen Coffin; block 193 $1

Stephen Coffin and wife to J P [illegible]; lot 1 in block 138 also lots 3 4 5 and 6 in block 193, $75

J B Upton to A S. Waitz lot 5 in block 127; $250

A New Gas Generator.—Mr. J. J Miller has on exhibition at the corner of Front and Morrison streets a new machine for [illegible] of lighting gas. It is claimed for it that it is absolutely safe from explosion and that it will furnish gas at the rate of not over $2 per [illegible] feet. The cost of the machine is about $[illegible] for eight burners We have seen it in operation and without attempting to describe the process of gas generation we have no hesitation in saying that it seems to have all the advantages which the proprietor claims for it. The lights are as [illegible] as ordinary gas lights and fully as brilliant. The burners can be used with or without chimneys though with chimneys the light is [illegible] and more powerful. The machine is so arranged that gas is [illegible] to suit the consumption [illegible] are in use. If all are lighted, the [illegible] rapidly. For hotels or [illegible] where several lights are [illegible] used at a cost not [illegible] and without any of the dangers of explosion which attach to the use of kerosene, and very much cheaper than it is possible to make coal gas. After the machine is purchased and the house gas fitting supplied, the only cost of material is gasoline, the gas being generated from the latter by simple contact of air and [illegible]. Mr. Miller will take orders to furnish [illegible] or will sell county rights in Oregon or Washington Territory.

Another Presentation.—Just [illegible] parade of the Washington Guard, [illegible] Capt. Mills was presented by his company with a handsome seal ring of [illegible] with a [illegible] setting Mr Alex Campbell, [illegible] of the Company, made the presentation on behalf of his fellow comrades, conveying in happy terms the high regards of the soldiers for their Captain The Captain, though taken unawares, of course responded in his usual [illegible] style. The ring is a beautiful [illegible] of workmanship On the inside is engraved, "W. G. to S. G. M." The Captain has quite a number of articles of beauty or value which have [illegible] at various times by the Company, in the way of complimentary testimonials.

Washington's Birthday.—The [illegible] anniversary was celebrated in this city yesterday, by a parade of the Washington Guard and Emmet Guard led by the 23d Infantry Band, through our principal streets, and by [illegible] display of flags. The two military companies [illegible] very creditable appearance. The day was remarkably fine, and gave opportunity for an unusually good display The uniform of the Emmet Guard, as topped off by their new caps, was gay, decidedly The general appearance of both companies did honor to their commanding officers Long may they wave.

Arrived.—The *Edward James* was towed up yesterday by the *Fannie Troup*, from Swan Island. We were mistaken [illegible] in relation to the [illegible] in which she went aground. She touched bottom at "dead low water" in the channel and was thereupon left, by the pilot, with a clear out. Subsequently she floated, at the rise of the tide, and drifted down stream and *drifted* aground out of the channel. It was not the fault of the pilot, as the vessel was drawing seventeen feet of water—more than there is in the channel at low tide. At high tide she could have come over without trouble.

U S District Court—Deady, Judge.—The following named persons were empanelled and sworn as Grand Jurors for the term

M I McCall Stillman Lewis B M Cundiff, George Flavel, Josiah Failing B G [illegible], W H Watkinds, Joel Palmer M. Hirsh, Isaac Williams James Fisk, Chas. W. [illegible], J. M Kelly W H Kuhn, J M Johns, Thos R. Cornelius Henry Fuller James Menzie, M. S Hart, Wm Showers, P. Kelley, W R. Sewall. Thos. R Cornelius appointed foreman

Geo H Durham was admitted to the bar

Military Amenities.—The 23d U S Infantry Band played for the parade of the military companies yesterday having been engaged for that purpose by the Washington Guard. After the parade and a [illegible] at Headquarters, the band was wined and dined by the Guard at the Exchange Hotel Mutual courtesies were also exchanged between the Washington and the Emmet Guards on the occasion of joining for the parade and at separating after the parade was over The relations of all these bodies are evidently of the most amicable nature as they should be.

Appointment of Committees.—Mr A B Hallock President of the Board of Delegates of the Fire Department has appointed the following committees

A NEW GAS GENERATOR —Mr J J Miller has on exhibition, at the corner of Front and Morrison streets, a new machine for the generation of lighting gas. It is claimed for it that it is absolutely safe from explosion and that it will furnish gas at the rate of not over $2 per thousand feet The cost of the machine is about $100 for eight burners. We have seen it in operation and without attempting to describe the process of gas generation, we have no hesitation in saying that it [illegible] have all the advantages which the proprietor claims for it. The lights are as steady as ordinary gas lights and fully as brilliant The burners can be used with or without chimneys, though with chimneys the light is steadier and more powerful. The machine is so arranged that gas is generated in quantity to suit the consumption. There is no perceptible difference in the blaze, whether one or all the burners are in use. If all are lighted, the machine simply runs faster and generates gas more rapidly For [illegible] or other public buildings, or even dwellings where several lights are wanted, it can be had at a cost not greater than kerosene lamps and without any of the dangers of explosion which attach to the use of kerosene, and very [illegible] cheaper than it is possible to make coal gas. After the machine is purchased and the necessary gas fitting supplied, the only cost, of material is gasoline, the gas being generated from the latter by simple contact of air and water. Mr. Miller will take orders to furnish machines or will sell county rights in Oregon or Washington Territory.

ANOTHER PRESENTATION.—Just before the parade of the Washington Guard, yesterday, Capt. Mills was presented by his company with a very large seal ring of gold with a moss agate set [illegible]. Mr. Alex. Campbell, formerly a Lieutenant of the Company, made the presentation on behalf of his fellow comrades, conveying in happy [illegible] the high regards of the soldiers for their Captain. The Captain, though taken unawares, [illegible] responded in his usual felicitous style. The ring is a beautiful specimen of workmanship. On the inside is engraved, "W. G. to S C. M." The Captain has quite a cabinet of articles of [illegible] value which have been presented at various times by the Company, in the way of complimentary testimonials.

Rules—C D Dietz, John Barrett and Ed Backenstos.

Certificates—B L Norden, M T Mulligan and C. Ball.

THE GREGORIES.—The Gregories opened last night at Oro Fino, to a full house The performance of the trained animals are simply wonderful, exhibiting a sagacity and capabilities for learning which are almost beyond belief The gymnastic and acrobatic performances and the pantomime were of a truly superior order frequently startling It is hardly necessary to say that the audience was delighted—the applause was of the most demonstrative sort If the house will hold the crowd to-night, there will be a new wonder

BRIEF MENTION.—The County Court yesterday adjourned till Friday afternoon

The mail will as usual, be closed three quarters of an hour before the sailing of the steamer

There were flags of four different nationalities flying yesterday in honor of Washington's birthday—American, French, Irish and Hawaiian

The steamer *Senator* brought down yesterday morning a whopping big load of produce

CIRCUIT COURT—UPTON, JUDGE —Proceedings of yesterday

State of Oregon vs A. J Moses testimony taken, argument heard and cases submitted to the jury.

THEATRICALS AT SALEM —The Bates Dramatic company will go to Salem to-day, to play a season of three or four nights only as they propose to return here in time to take the steamer [illegible] for Victoria We urge our friends [illegible] people of Salem upon the opportunity they will thus have to enjoy some really first class amusement The company will open this evening to the sensational drama of "Under the Gas Light"

PHILHARMONIC HALL We stated yesterday morning at the request of a member of the Committee of Arrangements that Philharmonic hall had been engaged for use on the occasion of the Odd Fellows ball We learn since from Captain McCormick that other parties had previously secured the hall for another purpose

OUT AGAIN Mr R J [illegible] has so far recovered from his recent terrible injuries as to be able to be out again He was down town yesterday in a buggy and was cordially greeted by hundreds of his old friends who welcomed him back to life as [illegible] were out of the gates of death

WASHINGTON GUARD'S BALL There was a gay and festive throng at the annual ball of the Washington Guard at the Armory last evening The affair was one of that happy kind for which the Guard is justly noted and the festivities were prolonged till far into the morning hours

PROBATE BUSINESS In the matter of the estate of John H Couch deceased Geo H Flanders has been appointed administrator, with bonds fixed at $70 000 Messrs W S Caldwell Henry Saker and B F Goodwin are appointed appraisers of the estate

PORTLAND PORT OF ENTRY BILL A private letter from Washington states that the bill to make Portland a Port of Entry passed the Senate January 31st and that it will pass the house as soon as it can be reached in the regular order of business

CATHOLIC LECTURE —There will be a lecture at the Catholic Church to-morrow evening by Rev Father De Crasna Subject—An Inspection of the Middle Ages Civilizing Action of the church

U S CIRCUIT COURT—DEADY, J Proceedings of yesterday

United States vs steamship *Fidelity* Appeal from U. S. District Court, upon application of U S Attorney, ordered that letters Rogatory be issued, to take testimony in British Columbia.

THE NEW LOCOMOTIVE The new locomotive Oregon, brought up by the *Webfoot* having been fitted up, made a trial trip yesterday on the East side track performing in good style.

BEN HOLLADAY —We learn that this gentleman will leave San Francisco for Portland on the 1st of March, and will, therefore arrive here about the 4th

EXHIBITION —There will be an exhibition of stereoscopic views at the Congregational Church this evening, for the benefit of the sabbath school

MILITARY ELECTION —The annual election of officers for the Washington Guard will be held at their next regular monthly meeting

PERSONAL AND POLITICAL

Josh Billings was obliged to adopt his peculiar style of spelling by the publishers, who declined all his early and correctly spelled contributions.

Hope Scott, who married Miss Lockhart, the granddaughter of Sir Walter Scott has a law practice of $100,000 a year—the largest in England.

The Louisville *Courier* says Gen Sherman has given Prince Arthur a gun and Belmont has given him a ball, and now it wants to know if there is not liberality enough in New York to furnish the rest of the ammunition

The decision of the Missouri court in the Frank Blair case, which was affirmed by the Supreme Court of the United States, was founded upon the following clause of the State Constitution "No person shall be deemed a qualified voter who has ever been in armed hostility to the United States or the lawful authorities thereof, or to the Government of this State" The simple meaning of the decision is that the validity of the test oath is sustained.

The Northern Democracy receive the following sharp cut from the Norfolk *Day Book*. "We suppose our Democratic friends throughout the country are somewhat amazed at the haste the people of Virginia have manifested in being reconstructed and getting back into the Union under Republican auspices, but they should remember that we waited very patiently for nearly four years for them to oust the Republicans, and as they failed to do so at the last Presidential election, our supply of patience gave out, and we had to reconstruct without waiting four years longer for them"

During the last Presidential campaign the Democrats went into the field with Frank Blair's letter declaring that the reconstruction policy of Congress was revolutionary, and must be overthrown at the point of the bayonet if necessary, inscribed upon their banners We all know what came of it While some of the minor journals which so stoutly fought under the revolutionary flag are still talking of overturning impartial suffrage, and quoting with admiration Governor Haight's bombastic threat that the fifteenth amendment will be of no avail in California, the *New York World* is endeavoring to persuade the Democracy that for the present, it will be as well for the party to make a change of base

The first State election of 1870 is that of New Hampshire, which takes place in March There are four candidates in the field for Governor—a Republican, Democratic, Temperance and Labor Reform—and this complicates political affairs to such an extent as to render the result in the State somewhat doubtful The Republicans and Democrats have renominated their last years' candidates the Temperance men have put up Professor Burrows, nine years ago President of the Pittsburg Female College, while the Labor Reformers on Tuesday last nominated Samuel Flint, on a greenback for bonds platform They declare they can poll eight thousand votes in the State. Last spring Gov Stearns had 3,773 majority over the Democratic candidate, while the fall preceding Gen. Grant's majority was 6 967

The firm which made the Big Drum for the Boston Jubilee is now devoting what energy it has left to the manufacture of tooth picks

"To night you git or dangle" is the notice served by Wyoming vigilance committees

CLOCKS CLOCKS —Everybody needs a good clock B L Stone has an inexhaustible supply because they keep coming as fast as he sells off He has all kinds and sells so cheap that any one who wishes to buy cannot fail to be suited in price and quality

The best Tuckmarker Binder Corder, Ruffler etc in use is adapted to the GROVER & BAKER SEWING MACHINE. WM CURRIER & Co Agents

RAILROAD MATTERS are very likely to be lively this spring The East Side Company will engage a large force of men to complete their road to Albany and the West Side Company will very probably, build a portion of their road in order to obtain a land grant to facilitate the building of their line to McMinnville Kohn & Fishel are keeping up with railroad times Their stock of spring goods coming across the continent by rail will be the largest and finest stock of clothing ever imported to this State. Their stock in store now is offered very low to make room for large arrivals They are manufacturing the neatest Boys Suits and always have on hand a large stock of the same which are offered at lowest figures

VALUABLE —The recent bill before Congress granting aid for the construction of a railroad from the Columbia river to Puget Sound if passed will make the large tracts of coal and timber lands owned by the Puget Sound Homestead Association on the Skookum Chuck and Newaukum very valuable

A few shares only remain untaken and can be had at the office of the Secretary or of Mr Cook in Canvass Agent

[illegible] J W Campbell has removed his new Patent Bed Bottom manufactory to Messrs Jensen & Hethlefsen's Cabinet and Carpenter shop southeast corner of Morrison and Fourth streets Although but recently introduced the Mounce's Bed Bottom is fast coming into general use and is giving general satisfaction Come and see it [illegible]

NOTICE

The First Annual Election of Officers of the Puget Sound Homestead Association will be held at Harmony Hall First street over the Post Office on [illegible] the 21 day of March next at ½ o clock P M Full and prompt attendance is requested

Shareholders who cannot be present at this meeting may vote if they so desire by proxy in accordance with Article 5th of the Constitution

The Living Machine.

Injure the main spring of a watch and every portion of the works becomes disordered The human stomach is to the human system what that elastic piece of metal is to a chronometer It influences the action of the other organs and controls to a certain extent the whole living machine The comparison may be carried further for as the weakness or other imperfections of the main spring is indicated on the face of the timepiece so also is the weakness or other disorder of the stomach betrayed by the face of the invalid The complexion is sallow or faded, the eyes are deficient in luster and intelligence and there is a worn, anxious expression in the whole countenance which tell as plainly as written words could do, that the great nourishing organ whose office it is to minister to the wants of the body and to sustain and renew all its parts is not performing its duty It requires renovating and regulating, and to accomplish this end Hostetter's Stomach Bitters may be truly said to be the one thing needful The broken main spring of a watch may be replaced by a new one, but the stomach can only be repaired and strengthened, and this is one of the objects of the famous vegetable restorative which for eighteen years has been waging a successful contest with dyspepsia in all climates As a specific for indigestion it stands alone. When the resources of the pharmacopœia have been exhausted, without, at best, doing more than mitigating the complaint, a course of this wholesome and palatable, yet powerful stomachic affords a perfect and permanent cure. In all cases of dyspepsia the liver is more or less disordered and upon this important gland, as well as upon the stomach and bowels, the Bitters act with singular distinctness, regulating and re-invigorating every secretive and assimilating organ on which bodily and mental health depend

Robert E Lee

[illegible]sistent attempts of those at the [illegible] sympathized with and encouraged [illegible] nists before the rebellion, and who [illegible]e war rendered them the aid and [illegible] their adulation, to restore traitors [illegible]g to good standing as public and [illegible] men, need constant watching and [illegible] condemnation not from any feel[illegible] vengeance towards baffled and van[illegible] insurrectionists, but to preserve the history and keep the pure patriotism [illegible]untry from being insulted by any [illegible]shown towards disloyalty Among [illegible]ost and worst of those who strove to [illegible]er the Union, destroy our free insti[illegible] the interests of an oligarchy and con[illegible] his treasonable work involving [illegible] murder, when he knew defeat was [illegible]was Robert E Lee Therefore *Har[illegible]ekly* is right in denouncing the in[illegible] that under any circumstances this [illegible]uld be regarded as distinguished [illegible] with the respect due to his own [illegible] That paper calmly but sternly

[illegible]s "the respect due his own charac[illegible] the case of Lee? The circumstances [illegible]reer are not forgotten nor will they [illegible]ed by history. The maudlin senti[illegible] that saluted him when the war [illegible] "a Christian hero," and which stig[illegible] the soldiers of the Union as Lincoln's [illegible]—the snobbish servility that dubbed [illegible] chief "the great captain," will not [illegible] truthful record of the war No [illegible] about "honest differences" will con[illegible] fact that Col. Lee, the confidential aid [illegible] Scott, remained as long as practicable [illegible]ost intimate relations with his supe[illegible]ote to his sister that he did not think [illegible]as any reason for hostilities and [illegible]ofessing obedience to his State immе[illegible]engaged in those hostilities, the ob[illegible] which was the overthrow of the Gov[illegible] and the unrestricted liberty of him[illegible] his associates to traffic in human be[illegible]

* * * * * *

[illegible]peat what we have said upon ever oc[illegible]when the attempt is made to thrust Lee [illegible]her publicity, that it is a fatal mistake. [illegible]al people of the United States who [illegible]ved their Government and liberty, will [illegible]im to remain in the obscurity into [illegible]e has fallen. But the effort to repre[illegible] as a hero to be honored, as a citizen [illegible]spected, as a man in any noble or gen[illegible] patriotic or desirable sense "distin[illegible]," is an effort at public demoralization [illegible]hall not pass unexposed.

[illegible]VER SWINDLE.—There are now wanted [illegible]on, England, two cute fellows who, [illegible] the late horse fair, performed one of [illegible]erest horse tricks that have ever been [illegible]ted. A farmer from Penwortham [illegible] the town for the purpose of buying a [illegible]orse, and while sitting in a public [illegible] Fishgate got into conversation with [illegible]table-looking man, who offered to sell [illegible] magnificent animal for 40 pounds. Af[illegible] good deal of higgling a bargain was [illegible] the money was paid, and some time [illegible]rds the farmer, who had imbibed sun[illegible] refreshments in the meantime, started for [illegible] But the horse soon stopped and re[illegible] to move, and at last laid down on the [illegible] apparently in great agony. Another [illegible]looking individual then made his ap[illegible]e, assured the farmer that he had been [illegible]" and said that though the creature [illegible] worth more than ten pounds, he would [illegible]n fifteen pounds for it. After some [illegible] the rustic made up his mind that per[illegible]e first loss would be the least, and ac[illegible] the offer, and the money was paid in [illegible]ns. On his way home the farmer called [illegible]blic house for another glass, for which [illegible]lered one of the sovereigns, which the [illegible] bit and rung on the table, and then [illegible]d the coin "a bad 'un." On examina[illegible]e remainder of the fifteen were found [illegible] the same quality.

[illegible]UR BANK NOTES.—The life of a French [illegible]ote is said to average two or three years, [illegible] not terminate until the condition is [illegible]aky indeed—crumpled, pierced with [illegible], corner creases torn, soft, tarnished, [illegible] while yet young. Some have been [illegible]; one has been found half digested [illegible] stomach of a goat, and one boiled in a [illegible]at pocket by a laundress. No matter, [illegible]hier at the bank will do his best to de[illegible]t; he will, indeed, take an infinity of [illegible] to put together the ashes of a burnt [illegible]nd will give the owner a new note or [illegible]ne in coin, if satisfied of the integrity [illegible] old one. The bank authorities pre[illegible] specimens of this kind as curiosities, [illegible] fragments gummed in their proper po[illegible] on a sheet of paper. Very few of the [illegible]re actually and irrevocably lost. Dur[illegible] last sixty-seven years, twenty-four [illegible]d bank notes of one thousand francs [illegible]ave been issued, and of this number [illegible] three thousand nine hundred and fifty-[illegible]ave been returned by the month of [illegible] last leaving only forty-two unac[illegible]d for. Whether these are still in ex[illegible] or burned into uncollected ashes, or [illegible] bottom of the sea, or elsewhere, is not [illegible] Of five hundred franc notes, twenty-[illegible]ousand nine hundred and thirty-four [illegible]een returned out of twenty-five thous-[illegible] *Chambers' Journal.*

[illegible] WILL BE THE AMERICAN CARDINAL — [illegible] from Rome brings us the following [illegible]out the proposed American Cardinal [illegible] of the Bishops are so delighted at the [illegible]nity afforded them of showing their [illegible]ncy in Latin that they get on the stump [illegible] slightest provocation, and make long [illegible]s. Some of our American Bishops [illegible]specially distinguished themselves in [illegible]anner. Archbishop Kenrick, of St. [illegible] was most eloquent on "the expediency [illegible] Council at this moment, and its neces-[illegible] a regenerator of society." None of his [illegible]tes had contested this point; but his [illegible]s after a Cardinal's hat, and hoped [illegible]s oratorical efforts might help his [illegible]. By the way, there seems little doubt [illegible] Eminence will be chosen from among [illegible] following McCloskey, Spalding, [illegible] and Kenrick. The latter counted [illegible]ntly on his promotion two years ago, [illegible] was obliged to go home as he came, [illegible] the red stockings. As it is, the Pope, [illegible]h he cannot interfere lest he should be [illegible] of a desire to prevent freedom of [illegible]on, does not look favorably on all [illegible]ste of time in irrelevant speech mak[illegible] that Archbishop Spalding will proba-[illegible] distance his more wordy competi[illegible]

[illegible]TRUE SPIRIT OF INVENTION Three [illegible]d years ago, when man had just begun [illegible] control over the forces of nature, and [illegible]e was yet fighting against religious in[illegible]ce for the bare liberty to *study* them [illegible]as one great mind that soared above his [illegible] with the capacity and will to look into [illegible]re, and form an appreciative estimate [illegible] was in store for man through the ge[illegible] invention, which was then just begin[illegible] make itself felt Lord Bacon must [illegible]d a full understanding of the true [illegible]f invention, and a just appreciation [illegible] influence which it was to exert on hu[illegible]urs, when he wrote the following par[illegible]

HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets.

He respectfully refers to the following

CARD.

Having examined the New Patent Shaft Coupling, invented by H R Hoagland we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used

It fastens without bolt or screw, and is therefore, easily and speedily separated It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense We have come to the conclusion to use this new invention ourselves and recommend its use in all cases We consider it far superior to the Brewster Patent, heretofore considered the best in use

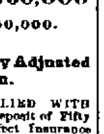
TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr Gibbon's Dispensary,



623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco Established in 1854, for the treatment of Sexual and Seminal Diseases such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc Skin Diseases (of years standing) and Ulcerated Legs successfully treated

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene Let parents, guardians friends attend to those who are suffering with any of these horrible life destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon a physician who has made private diseases his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry or you may fall into the hands of these charlatans

Seminal Weakness.

Seminal Emissions the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures viz Sallow countenance dark spots under the eyes pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect loss of confidence diffidence in approaching strangers a dislike to form new acquaintances, a disposition to shun society, loss of memory hectic flushes pimples and various eruptions about the face, furred tongue fetid breath coughs consumption, night sweats monomania and frequently insanity If relief be not obtained should apply immediately either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

MARRIED MEN.

Or those who contemplate marriage who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay obtain immediate relief

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure or make no charge

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms, length of time the disease has continued and have medicines promptly forwarded free from damage and curiosity to any part of the country, with full and plain directions for use. Ten Dollars, sent in registered letter or through Wells, Fargo & Co

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who with bogus sworn certificates dupe the unwary Some of the self styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco and other places are tradesmen and [illegible] [illegible] [illegible] Look over the San Francisco Directory, and you will find [illegible] but you will find their former [illegible] [illegible] at the Directory [illegible] [illegible] make enquiry It will [illegible] and [illegible] an advertising physician [illegible] there is no safety in trusting any of them [illegible] what they are Dr Gibbon does not deceive people by exhibiting bogus certificates, pretended patient's letters etc Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure

What the Hon W T Ballou says about the King of Pain "

SAN FRANCISCO Dec 7 1869

Dr J J McBride—Having suffered with sciatic rheumatism some months I was induced to use your King of Pain " I take pleasure in recommending it to those afflicted with rheumatism I know of several cases of neuralgia that have been cured by using it
W T BALLOU of Elko Nevada

Card from Harbor Master

SAN FRANCISCO, Dec 2, 1869

To Dr McBride—This is to certify that I have been troubled with neuralgia in my right arm and hand for the past three months and although I have had medical advice, and tried a number of remedies, none has relieved me until I tried Dr McBride's "King of Pain " which has done me more good than all the other remedies I have tried. DR. J. J. M'BRIDE,

TELLS YOUR DISEASE WITHOUT ASKING ANY QUESTIONS!

A CARD.

SAN FRANCISCO, Oct 16 1869

DR McBRIDE—My Dear Sir For the last six or seven years I have been afflicted with rheumatic pains, from my knees down, embracing all the joints of ankle and toes These pains have come upon me periodically every year, about this season of the year My knees and ankles, and toe joints, and my wrists and finger joints would swell and leave me in the most agonizing pain, known only to those who have suffered from this dread malady These pains would continue for a period of from three to four months every year, and they have been regular, unfailing annual visitors I have been accustomed to apply for relief to the best citizens of San Francisco, and have not failed to use all the popular remedies known to the public I would sometimes receive temporary relief, after long continued application, but it would never fail to return in a few days with increased severity

About two weeks ago, while my pains were upon me, I saw you at the corner of one of our streets, and heard what you said about your "King of Pain " I confess that I listened to you with deep distrust. Indeed, I may say that I did not believe your statements Still, I thought I, "It's only a dollar and I'll patronize the 'humbug' one dollar's worth " I bought a bottle and tried it first on my knee, which was fearfully swollen, and from which I suffered very severely The second night I tried it again, and my dear Doctor you can judge of my surprise ecstacy and delight altogether when I found on rising the second morning that my pains were entirely gone and the swelling entirely disappeared My knee joints were as supple as when I was young I actually danced with delight, much to the amusement of my friends who had been in the habit of regarding me as a decrepid old rheumatic It has now been two weeks and I have not felt the least symptom of return I believe I am cured and I feel so grateful to you that I offer you this statement, verified by my oath, to be used by you in whatever way you may think proper, and I feel it a duty to let others similarly afflicted know where they can find relief

I am yours very truly RAPHAEL LOOKAYSE

State of California, city and county of San Francisco On this 16th day of October, 1869, personally appeared before me, a Justice of the Peace in and for the city and county of San Francisco aforesaid, Raphael Lookayse known to me to be the person who signed the foregoing letter, and who being by me duly sworn, deposes and says the contents thereof are true

T W TALIAFERRO, Justice of the Peace

TO THE PUBLIC.

Grateful for the eminent services of Dr J J McBride I cheerfully make a statement of the following facts For twelve months I had suffered from prostration of my nervous system resulting in partial paralysis and almost total loss of sight A score of physicians had abandoned my case as hopelessly incurable, I had even heard my days numbered by doctors and friends In the agonies of my neuralgia pain, I sought the great King of Pain Under that benign influence, in one half hour I had obtained more medical aid than I had known for long weary months My sight was so much restored that I could read print although I had needed a guide to find Dr McBride's office an hour before Before leaving him I had regained the use of my almost palsied limbs and seemingly my strength had returned while all those aches and pains my constant companions were dissipated and gone It [illegible] few days since I underwent treatment with Dr McBride and I can say unhesitatingly that I am restored as I could not have expected to have been in so little time My eyesight is most perfectly regained my whole physical system is restored to firm [illegible] health

My residence is in Reading [illegible] business at No [illegible] Cambridge street, in this city where I will willingly vouch in person for the truth of the foregoing to any one interested
